“Our mission is to efficiently provide technical solutions to our clients through professionals with a passion for service.”

Since our founding in 1951, R.E. Warner & Associates, Inc. has experienced steady and continuous growth. Building on our traditional strengths and values, we have entered into new fields only when it is consistent with the basic mission of our company. Today, R.E. Warner is a full service, multi-discipline consulting firm serving both public and private clients.

We call ourselves multi-discipline because we offer professional services in civil, structural, mechanical, electrical and process engineering; architecture and planning; surveying; and environmental science and engineering.

Our impressive list of clients includes many of our nation’s largest steel, automotive and chemical producers, electric power companies, health and educational facilities, and various agencies of the federal, state and local governments.

R.E. Warner’s mission is to provide efficient technical solutions that significantly improve our client’s core business through people with a passion for customer service. Our areas of practice include buildings and facilities, industrial operations and process engineering, infrastructure, transportation, energy management, surveying, environmental and construction services.

In order to fulfill our mission to our clients, R.E. Warner consistently recruits, hires and retains leaders in our profession. In recognition of our great workplace, R.E. Warner has been named a multi-year winner of the NorthCoast 99 Award, presented annually by the Employers Resource Council to the top 99 companies to work for in Northeast Ohio.

We invite you to contact many of our peers listed in this brochure to discover how working with R.E. Warner can be economical, efficient, and always professional.
Automotive and Manufacturing

Automotive and manufacturing companies, whether small businesses or Fortune 500 companies, have called upon R.E. Warner & Associates, Inc. for engineering and architectural services since 1951. We have been involved in the planning and design of new greenfield facilities as well as the expansion and modernization of existing operations. Our projects have ranged from simple warehouses to multi-million dollar production plants.

R.E. Warner provides a full range of services including facility planning and layout, detailed design, and construction administration. We have been involved in the planning and design of new buildings and production facilities, plant renovations and additions, material handling systems, plant automation and controls, ergonomics, fall protection, utilities, power systems, pollution abatement, fume and dust control, HVAC and fire protection systems.
